## WWD

A key trend for fall is designers' attempts to reinvent the suit for the Millennial generation – and even younger. They injected a variety of Nineties and youthful streetwear references such as longer, boxy blazers, cropped baggy pants and statement headwear accessories. For more on the designer suit trend, see pages 8-13.

## ART OF DARKNESS

**JACK HUSTON** stepped out of the towering shadows of his Hollywood family (see also: Walter, John, Tony, Anjelica) by playing an assassin with a softer side on **BOARDWALK EMPIRE** and a mobster with a romantic streak in **AMERICAN HUSTLE**. This month, he brings the full Heston in a megabudget remake of **BEN-HUR**. But first he demonstrates that the best way to balance a dark fall wardrobe is with color, texture, and a little bit of confidence.
