## German engineering meets American ingenuity.

It's a \$1 billion investment. It's the birthplace of the all-new 2012 Passat. And it's creating more than 2,000 jobs inside the factory and thousands more for vendors and businesses in the area. Meet the new state-of-the-art Volkswagen plant in Chattanooga, Tennessee. This eco-responsible, 1,400-acre super plant is expected to give the economy a significant boost and put many brand-new Passat vehicles on the road. We couldn't be happier to be here. That's the Power of German Engineering.
