MAKEUP *fine*
LINES

MUCH LIKE RED LIPSTICK, black-as-night eye makeup—dense liner dramatically flicked, fanned-out lashes generously coated, top and bottom—is at once timeless and cool. Which is why such iconic beauties as Twiggy, Sophia Loren, Brigitte Bardot, and, now, New York's crop of emerging socialite Djs have availed themselves of its attention-grabbing powers. With inky eyes the focus at fall's Gucci, Saint Laurent, and Rag & Bone shows, the dark side continues to beckon. •
