What to Look for When You're Shopping for a Cord Suit

Elbow patches: a totally optional old-school touch. If you are more of a super-modernist, skip them.

Casual corduroy suits look especially good with tie-back patch pockets. (Stop snickering. Pockets can be tie-back.)

This color is to corduroy suits what gray is to denim suits—the gold standard. (Or is this case, the kindly bronzy, mustard yellow standard.)

How to Catch the Right Wave

In addition to silencing cord suits way down and cutting them in vibrant new colors, designers have narrowed the wailes on modern corduroy. Traditionally, wider wailes were more casual and narrow wailes more refined. And that's still true. But the thing is, wider wailes are generally favored by dudes who hoard newspapers, smell like tuna-fish sandwiches, and wear corduroy blazers that are covered in cat hair and dandruff. So what we're saying is... you should go narrow. If you want to get specific about how narrow, you can break out a ruler: The good stuff has about fourteen wailes per inch, while your grandpa's hunting jacket has eight. But as long as it looks roughly like the suit you see on this page, you should be in good shape.

Remember, a cord suit is a good look even if you're not a business suit-at-the-office kind of guy. Sure, you can wear it with a white oxford shirt, but as you'll see over this issue's pages, going colorless and solid is more in the spirit of 2014.

GO STYLE - PAGE 01

New Look, New Rules

How the Concept of the "Full Suit" Has Changed

By Alessandro Mendini, designer of coveted French brand AMI

In menswear today, everything is possible, so wearing a sweater or sweatshirt underneath a suit isn't out of line. It's much easier to mix things up—it makes the suit more casual and elegant, and cooler.

Mixing up textures is one of my favorite things to do—like a thin sweater with a tweed jacket, for example—but I always keep things in classic colors. I'll wear a navy sweater with my black jacket, or vice versa. We like the color combination of black and navy in Paris. I also love the look of a gray crewneck with black trousers and a black jacket.

I've gotten to the point where I won't even wear a suit in a formal way unless I have to. I won't wear a suit with proper leather shoes anymore—it feels like too much. I always wear suits with trainers. Just last night, at a party for Bulgari, the jeweler, I was wearing a classic navy blue suit with a gray sweatshirt and my white Adidas Stan Smiths. To me, that's perfect.

Mendini is right: This look is tailor-made for sneakers. May we suggest the cleanest, whitest kicks you can find? (See sidebar for a few good ideas.)

A V-neck over a white dress shirt used to be a 60 staple. But these days, when styling shirts, we reach for crewnecks ten times out of ten.

DON'T MAKE US CALL THE STYLE SHERIFF
The Do's and Don'ts of the New, Wilder Westernwear

John Mayer's ongoing troubadour phase has included a transition to head-to-toe new-generation westernwear. It can be tough to stomach a total celebrity makeover, but look like we think Mayer looks cool. Here's how to co-opt the best parts of his style and avoid the mistakes.

Do trust designers for when westernwear is a fashion move rather than a fleeting trend. The One Confusing Gray Area with the Color Gray

• Forget fifty shades—there are a thousand shades of gray. So which one should your new flannel suit be? Well, if you're a conservative businessman, the answer is charcoal. If you're looking for cool points, here's a rule of thumb: The lighter the gray, the bigger the style statement and the harder the suit is to pull off. So try on a few options, starting with the ones we chose here.

1. **Don't Go All Flat**
As you can see, the best flannels are flannel and twill, not flat and evenly colored. Your suit runs the risk of being boring if the color is way dynamic.

2. **Wool**
3. **Wool**
4. **Wool**
5. **Wool**

The Tweediest Fall We Can Recall

The only thing warmer than a tweed quilted jacket is a quilted tweed quilt.

Since modern men don't carry shotguns, staph your iPhone here.
